The subject is fully visible and seems further away

Notes: *The subject appears small and further away from the camera. Full-body ≠ zoomed-out.*

a couple of women smiling at the camera who is also a italian,architect,handsome,funny,blue sitting in a photo booth with a black background

af_3: cut off

af_3a: body cut off

A part of the subject's body is cropped out of the frame

Notes: *Only count it as "body cut off" if the body is cropped out vertically in the image. If the body is missing because of the original framing — for example, taken in a photobooth that doesn't show the full body, or a selfie where part of the body is out of frame due to the camera angle — it does not count as cropped off*

© 2019 Getty Images. All rights reserved. No part of this image may be reproduced without written permission from Getty Images.

af_3b: face cut off

The face is partially or completely missing from the image, by being cropped out of the frame

Notes: *Only includes the face being cut off, starting either vertically or horizontally from the eyebrows (top) or lips (bottom), does not include solely part of e.g. forehead or chin. Thus does not include overall 'head' without part of the face being cut off*

Aphidius spp. represented 90% of the parasitoid community, with *A. ervi* being the most common species, representing 37% of the total. *A. ervi* was the most common species in all the habitats, with a 100% prevalence in the grassland and 90% in the forest.

af_4: side profile

A photo that depicts the subject's face partially or fully from the side

Notes: *Counts as side profile if the contours of the nose are shown clearly by being positioned (slightly) sideways*
